City of Kent Water Flow Availability Certificate

TO BE FILLED OUT BY APPLICANT:

Date of Request: _____

Applicant's Name: _____ Phone No.: _____

Email Address: _____

Proposed Use: _____

Location/Address: _____

King County Tax Account No.: _____ (Attach map and legal description if necessary)

TO BE COMPLETED BY DEVELOPMENT ENGINEERING:

Available Water Flow Information from GIS ¹	
Static Pressure:	_____ PSI
Total Flow	_____ GPM @ _____ Residual Pressure (PSI)

¹The above stated Water Flow Information was obtained from GIS Kent Data Viewer, Node # _____, at the _____-inch public water main located _____, approximately _____ feet from the project site. This information does not reflect any specific modeling for any specific project demand. The information presented in GIS Kent Data Viewer is consistent with the analysis presented in the City of Kent 2019 Water System Plan.

Comments: _____

Prepared by: _____ Date: _____

Notes:

- a) If the proposed project requires more flow than reported on this form, please request a modeling of the system to determine if system upgrades are needed to obtain the needed flow. If the needed flow is for fire protection reasons, contact the Puget Sound Regional Fire Authority (RFA) to determine the demand and provide that documentation when requesting a modeling of the system.
- b) If connecting to a private fire main, please contact the RFA.
